# Portal Layout Skeleton

Structural blueprint behind every screen in this document. The global shell (sticky header, content zone, footer note) is identical on candidate and admin surfaces, so navigation is never re-learned. Each page below it fills the content zone with its own blocks.

```
GLOBAL SHELL — used by every page
+-------------------------------------------------------------------+
| HEADER (sticky, min-h 64px): [GYRS *] Home All-Jobs Skills .. [☰]  |
+-------------------------------------------------------------------+
| CONTENT ZONE (max-w-6xl, white rounded-2xl cards on slate bg)      |
|   -- page blocks plug in here, tables scroll inside cards --      |
+-------------------------------------------------------------------+
| FOOTER NOTE: apply only on board official sites · GYRS takes      |
| no applications and no fees                                       |
+-------------------------------------------------------------------+
```

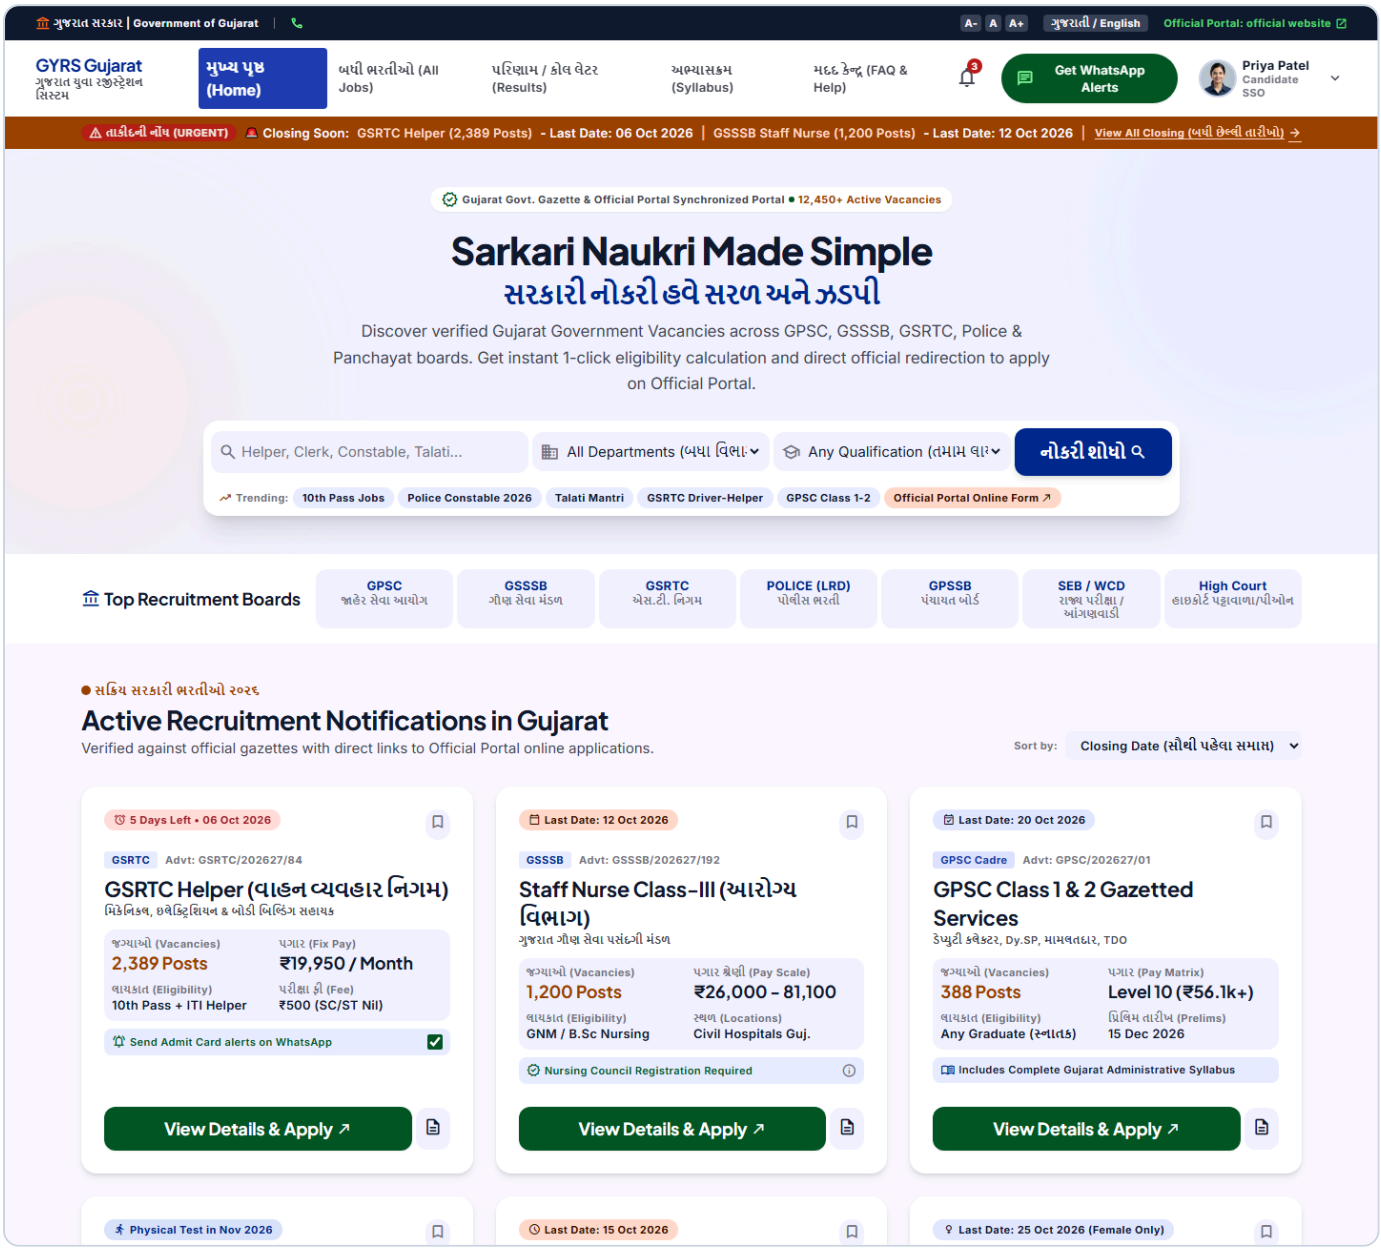

```
HOME (/)                          | ALL JOBS (/jobs/)
[H1 + trust pill + live count]    | [search | district | sort]
[search: keyword|board|qualif][Go] | sidebar: urgency/board/qualif
[trending pills + boards strip]   | cards: badge advt deadline
[job cards: metrics + View & Apply] | title · grid · [View & Apply]
[eligibility calc + how-it-works] |
DETAIL (/job-detail/?id=..)       | DASHBOARD (/dashboard/)
[badges + H1 + match %]           | KPI row: matched/saved/applied
[metric grid x8]                  | [profile form | CV analyser]
[Apply official][Save][Applied]   | [match-ranked jobs][saved|done]
[tabs: notification|docs|eligib.] |
SKILLS (/skills/)                 | ADMIN (/admin/)
[card: level · time]              | sidebar: dash jobs users apps

                                  | tables -> add-job form -> reports
```

**How to read:** every screenshot page that follows is one of these blocks filled with real data. Nothing sits outside the shell — that is what keeps mobile free of overlaps: one sticky header with a hamburger menu, one content column, tables scrolling inside their cards.

# Home — Job Discovery Gateway

**What this screen does:** Hero with trust pill + live vacancy count, 3-part search (keyword, board, qualification), trending pills, Top Recruitment Boards strip, live job cards with vacancies / salary / eligibility / deadline, eligibility calculator, 3-step how-it-works and live stats.

**UX note:** One screen answers: what jobs exist, am I eligible, how do I apply. Every card routes inward to its own Job Detail page; the candidate never leaves the portal until the final official Apply click.

## Frequently Asked Questions (FAQ)

Clarifications on Official Portal submission, fee waivers, and GYRS verification.

**૧. GYRS અને Official Portal ગુજરાત વચ્ચે શું તફાવત છે? (GYRS vs Official Portal)**

Official Portal (Online Job Application System - official website) એ ગુજરાત સરકારનું સત્તાવાર પોર્ટલ છે જ્યાં તમામ ઓનલાઇન ફોર્મ અને ફી જમા થાય છે. GYRS એ ગુજરાતના યુવાનો માટેનું આધુનિક સૂચના અને એલિજિબિલિટી ગાઇડન્સ પ્લેટફોર્મ છે, જે તમને યોગ્ય વાયકાતની ગણતરી કરી સીધા જ Official Portal ના સંબંધિત પેજ પર રીડાયરેક્ટ કરે છે.

**૨. Official Portal પર વન ટાઇમ રજીસ્ટ્રેશન (OTR) કેવી રીતે કરવું?**

**૩. SEBC, EWS, SC અને ST કેટેગરી માટે પરીક્ષા ફીમાં શું છૂટછાટ છે?**

**૪. વોટ્સએપ અને એસએમએસ એલર્ટ માટે કોઈ ચાર્જ છે?**

# Job Detail — Notification, Documents, Eligibility

**What this screen does:** Full metric grid (vacancies, qualification, salary, location, age, fees, dates), match % for logged-in users, Save / Mark-as-Applied, tabbed Notification text + PDF download, Documents checklist, and interactive age/category eligibility checker.

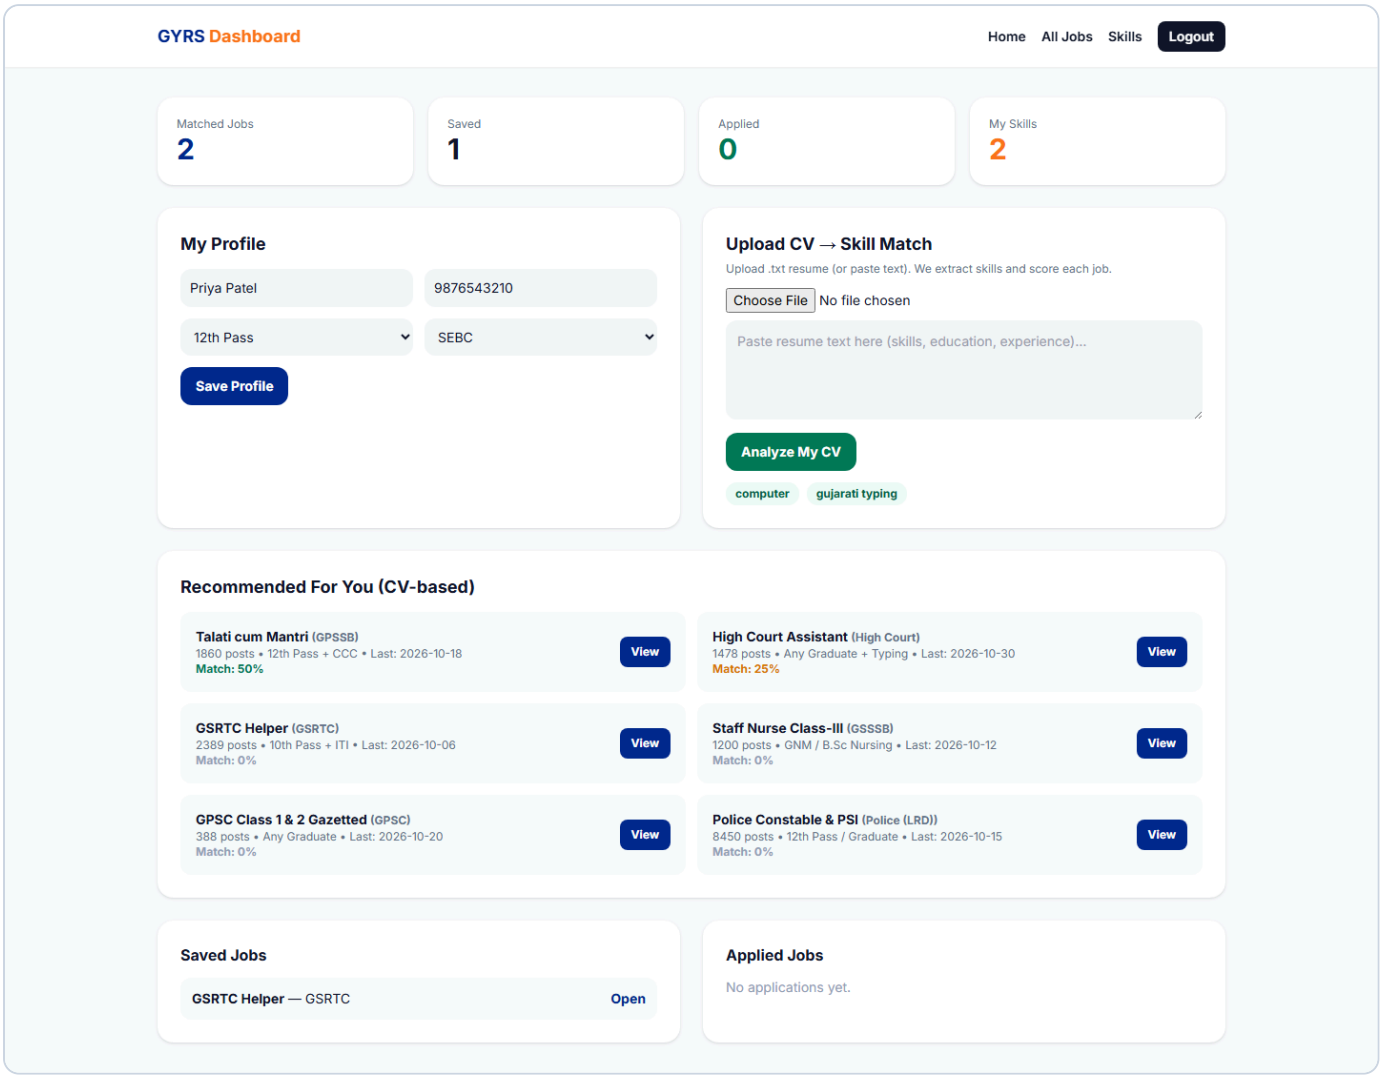

**UX note:** The single source of truth per recruitment: green Apply button opens only the recruiting board's own official website in a new tab. GYRS never collects applications or fees.

# User Dashboard — Profile, CV Match, Tracking

**What this screen does:** KPI cards (matched / saved / applied / skills), editable profile, CV upload + paste-text skill analyser, CV-scored recommended jobs, saved-jobs and applied-jobs lists.

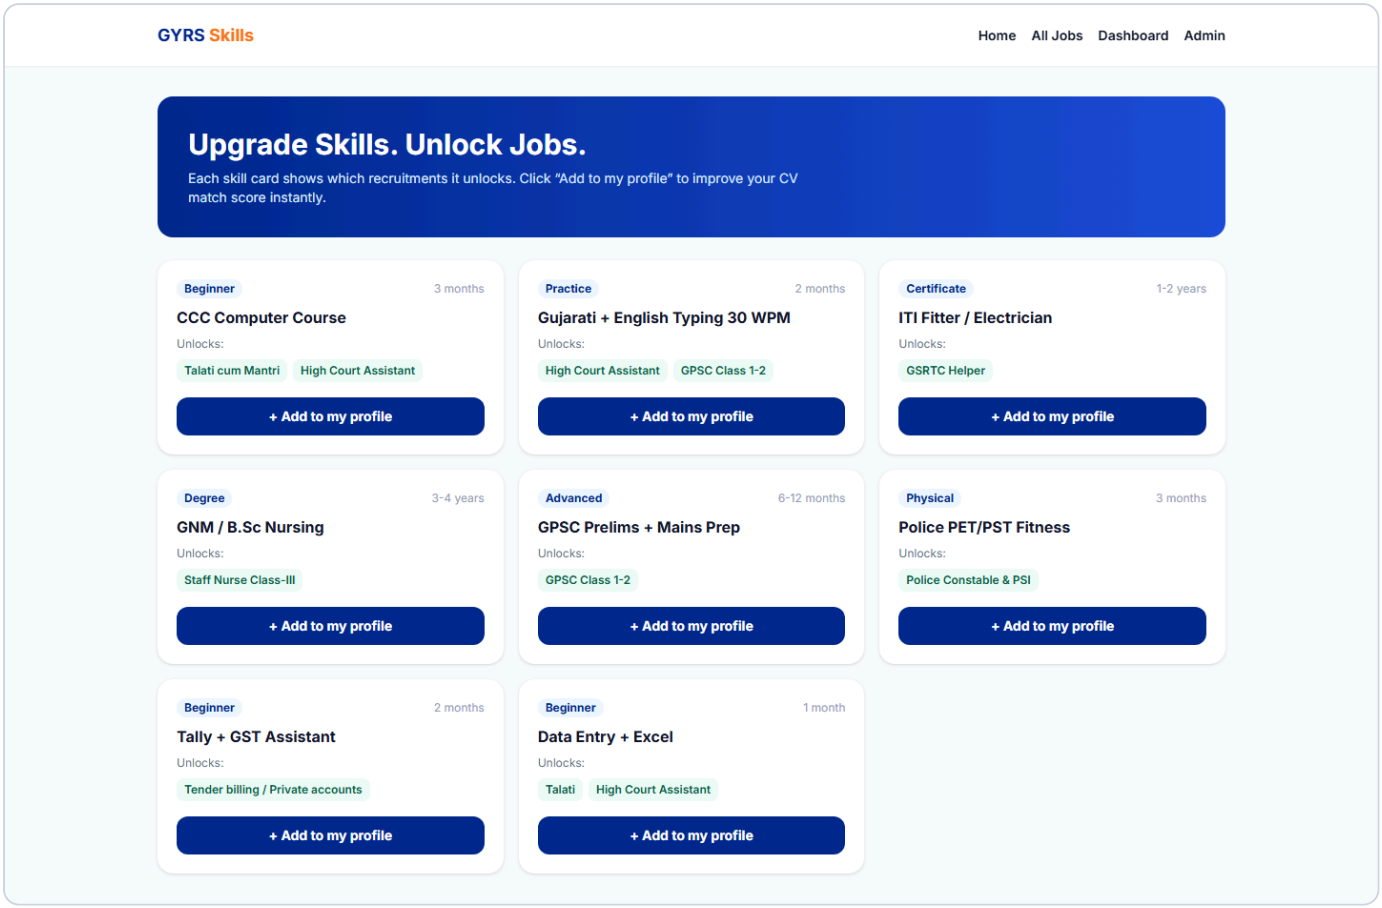

**UX note:** Uploading a CV instantly re-scores every job by skill overlap; missing skills point the candidate to the Skills page to unlock more opportunities.

# Skills — Upgrade to Unlock Jobs

**What this screen does:** Catalog cards (CCC, typing, ITI, nursing, GPSC prep, PET fitness, Tally+GST, Excel) each listing the recruitments they unlock, with one-click Add to my profile.

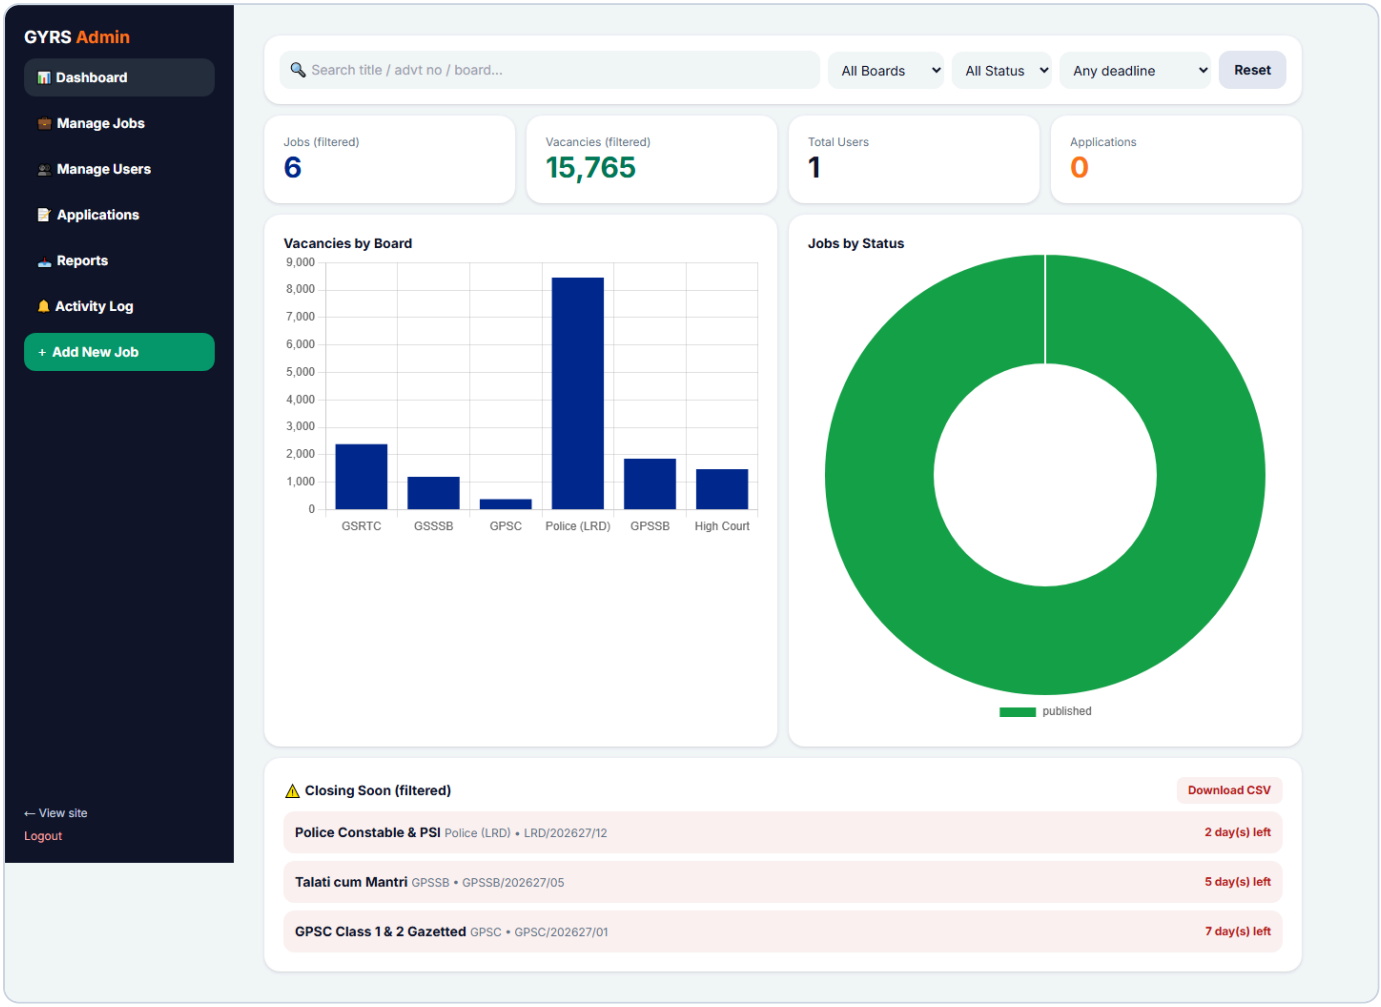

**UX note:** Closes the loop: a locked job shows which skill unlocks it, and adding the skill immediately raises the dashboard match score.

# Admin — Dashboard with Filters, Charts, Reports

**What this screen does:** Global search + board + status + closing-window filters driving KPI cards, vacancies-by-board and jobs-by-status charts, and a closing-soon action list with CSV export.

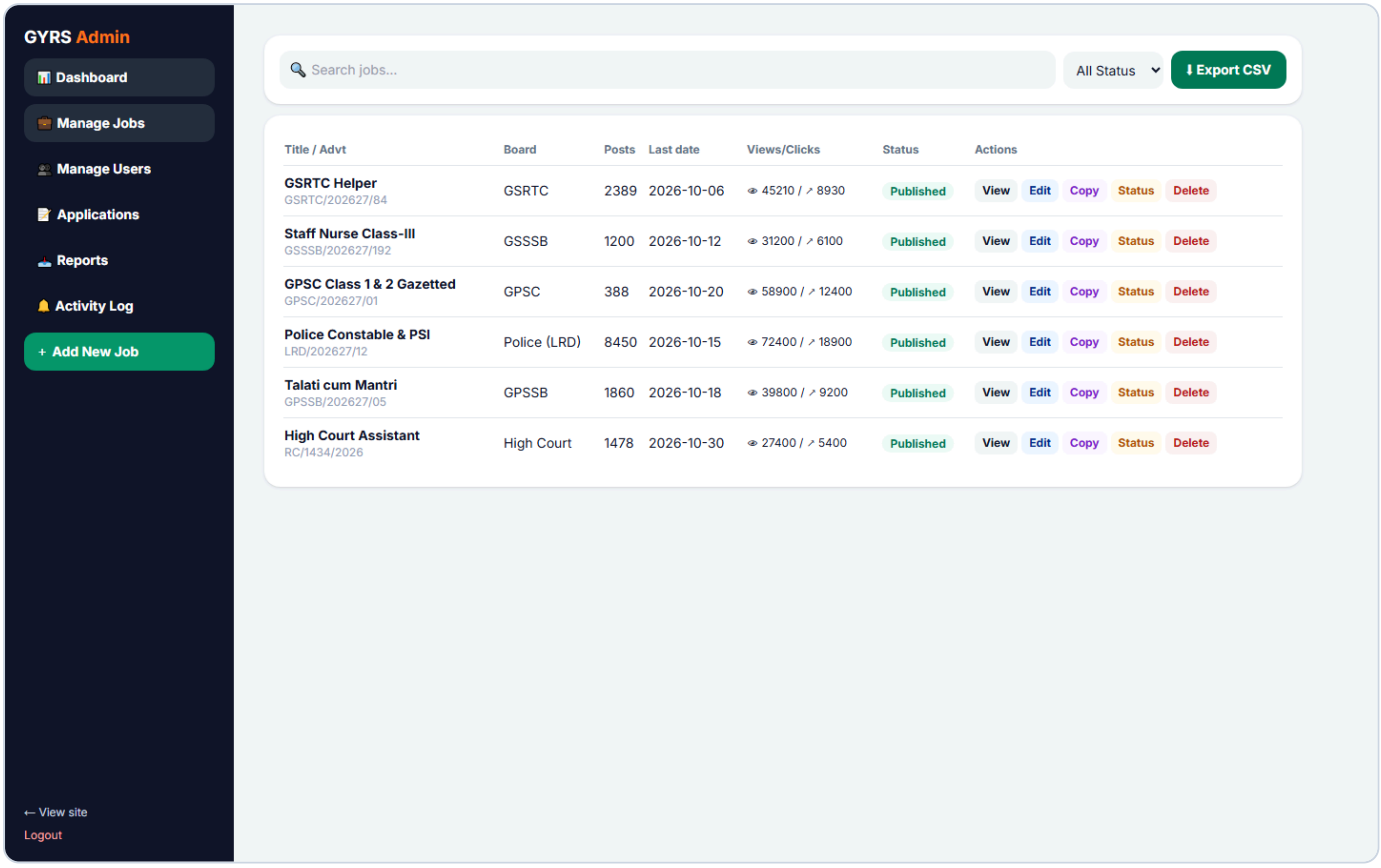

**UX note:** Production control room: filter to any slice (e.g. Police + closing in 7 days) and download exactly that slice for reminder campaigns.

# Admin — Manage Jobs

**What this screen does:** Searchable, status-filterable jobs table with views/clicks telemetry, status pills and per-row View / Edit / Duplicate / Status-toggle / Delete plus one-click jobs CSV export.

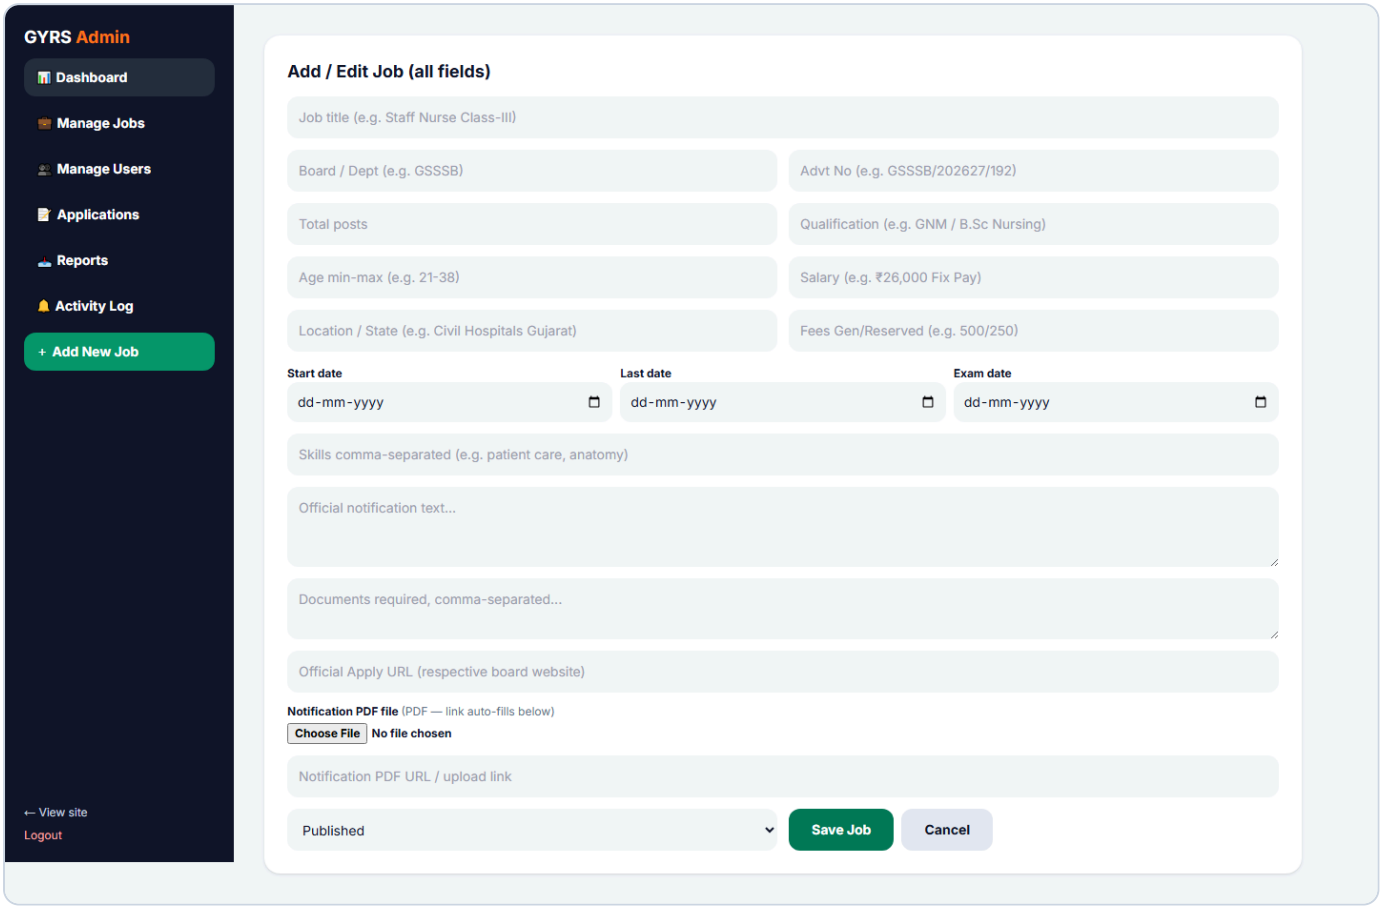

**UX note:** Full lifecycle in one table: draft → publish → close, duplicate repeat recruitments, and audit performance without leaving the page.

# Admin — Add / Edit Job (All Fields)

**What this screen does:** Every field a posting needs: title, board, advt no, posts, qualification, age band, salary, location, fees, start/last/exam dates, skills, notification text, documents checklist, official Apply URL, notification PDF file picker + URL, and publish status.

**UX note:** Saving publishes instantly to Home, All Jobs and candidate dashboards; every change is written to the Activity Log.

## How the portal flows together

1. **Discover** — Home search / All Jobs filters surface the right recruitments with vacancies, salary and deadlines visible up front.
2. **Verify** — Job Detail tabs show the official notification, documents checklist and an eligibility checker before any commitment.
3. **Apply externally** — The green Apply button opens that board's own official website. GYRS never takes applications or fees.
4. **Track & upskill** — Dashboard tracks saved/applied, scores CV skill-match per job, and Skills unlocks blocked opportunities.
5. **Operate** — Admin filters, edits, publishes, exports CSV reports and audits every action in the Activity Log.
